## SUMMARY

A disciplined web developer with over 4 month of experience working with HTML5, CSS3, and JavaScript. Able to work both as part of a larger team and individually. To secure a challenging position where I can effectively contribute my competent skills in your concern and to fulfill the needs of the organization and move to ultimate heights in my profession.

---

## WORK EXPERIENCE

### Junior Developer , UnusTechnology Solution

Jan 2023 - May 2023

- Assisted senior developers in translating basic client requests into an HTML code
- Co-led a brief 1-day HTML & CSS workshop for colleagues working in sales and marketing
- Assisted senior developers in developing the websites of 3 multinational clients
- Partnered with designers to ensure high-quality graphic content

---

## PROJECTS

### Web Service Providing System - [Source Code](#)

Proficiency in HTML, CSS, and JavaScript.

- Designed and developed user-friendly websites catering to various services.
- Implemented engaging animations and optimized images for enhanced user experience.
- Integrated email submission functionality for seamless data collection.
- Ensured mobile compatibility for accessibility across devices.

### Drum Kit Project - [Source Code](#)

- Developed an interactive drum kit website using JavaScript, HTML, and CSS.
- Implemented functionality where different drum sounds play upon clicking corresponding buttons on the webpage.
- Utilized JavaScript event listeners and audio handling techniques for responsive and dynamic user experience.
- Demonstrated proficiency in front-end web development, particularly in JavaScript for interactivity and audio manipulation, and in HTML/CSS for structure and styling.

### Automobile Management System (University Project)

Using HTML and CSS

- Vehicle spare parts website is presently used in every bike spare parts and accessories for computerizing entire system.
- The user can add, delete, and update a medicine & a customer.
- Also, the user can issue the sales invoice.
- Multiple users can login to this application and only the administrator can see a report to know the login and logout (date & time) for each user

## Gold & Diamond Shop (Figma App Design) - [Link](#)

Proficiency in Figma for UI/UX design and prototyping.

- Designed a comprehensive Gold and Diamond Shop app prototype using Figma.
- Created user interface elements including login page, registration page, separate sections for gold and diamond products, and an add to cart page.
- Ensured intuitive user experience through clear navigation and visually appealing layouts.
- Incorporated modern design principles to showcase luxury and elegance reflective of the brand.

---
